# YEMI JOSEPH

## Full-Stack & Infrastructure Engineer | AI & Data Systems Specialist

📍 Abuja, Nigeria 📧 yemi.joseph@example.com 🔗 linkedin.com/in/yemi-joseph-13886043a

🌐 github.com/yemijoseph

## EXECUTIVE SUMMARY

Versatile, results-driven Engineer with extensive experience engineering scalable web applications, managing physical/ELV IT infrastructure, and building intelligent automation pipelines. Proven expertise across the full tech stack—from Next.js 15, TypeScript, and serverless PostgreSQL to AI model integration, automated ETL workflows, and advanced SQL data analytics. Adept at bridging physical hardware, cloud deployment pipelines, and business intelligence to engineer high-converting, resilient digital platforms.

## CORE TECHNICAL COMPETENCIES

**Full-Stack Web Development**
Next.js 15 (App Router), React 19, TypeScript, Tailwind CSS, Node.js, Prisma ORM, REST APIs, Webhooks

**Database & Data Analytics**
PostgreSQL (Neon.tech), SQL (Window Functions, CTEs), Python (Pandas), Time-Series Metrics, Recharts

**Applied AI & Automation**
Gemini / OpenAI API, Multimodal OCR Vision, n8n / Make Workflow Automation, ETL Pipelines, Prompt Engineering

**IT Infrastructure & Cloud**
Managed Switches, 42U Rack Elevation, Cable Tracing, AWS EC2, PM2, GitHub CI/CD, Linux Server Admin

## PROFESSIONAL EXPERIENCE

### Infrastructure Specialist & Engineer — KPR Consulting Limited

Oct 2026 – Present

- Architect and oversee enterprise ELV and physical IT network infrastructure installations, including server rack mounting, managed switch configurations, and VLAN setup.
- Conduct site assessments, manage structured network cabling, and perform port-to-port cable tracing to ensure zero-downtime hardware operations across client installations.
- Streamline hardware intake registry workflows and network diagnostic procedures using modern tracking tools.

### Lead Full-Stack & Automation Consultant — Software Consulting

2020 – Present

- Design and deploy custom web platforms, landing pages, and backend integrations for diverse client initiatives using Next.js, Tailwind CSS, and PostgreSQL.
- Integrate AI models (Gemini / OpenAI APIs) to automate document processing, text generation, and data extraction pipelines.
- Build automated n8n and webhook-driven alert systems connecting database updates directly to communication channels (Slack/Email).

**Web Development Lead** — **Digital Solutions Provider** 2020 – 2026

- Led end-to-end development of responsive web applications, prioritizing mobile-first architecture and high touch-target usability.
- Managed cloud VPS hosting on AWS EC2, configuring SSH security, process management (PM2), and continuous deployment pipelines.

## FLAGSHIP ENGINEERING PROJECTS

**InfraTrack — Enterprise IT Asset & Infrastructure Dashboard** **Next.js 15, TypeScript, Tailwind, Prisma, PostgreSQL**

Engineered a 100% mobile-responsive, dark-themed IT asset management platform featuring an interactive 42U rack elevation visualizer and port-to-port cable tracing matrix. Integrated serverless PostgreSQL schemas handling complex relational mappings for physical sites, racks, switches, and VLANs.

**FinPulse AI — Automated Financial Analytics Engine** **Next.js, Recharts, SQL Window Functions, Gemini API, n8n**

Built a real-time market data analytics platform computing moving averages ($20\text{-day}$/$50\text{-day}$ SMA) and market volatility using advanced SQL window functions. Implemented AI sentiment analysis pipelines on news feeds, triggering automated n8n webhooks to dispatch structured market alerts.

**OmniSupply AI — Operations & Vision OCR Logistics Platform** **Next.js, Tailwind CSS, Gemini Vision OCR, PostgreSQL**

Developed an inventory supply chain system with an integrated Multimodal AI OCR scanner that processes hardware invoices and automatically populates structured database records.

## EDUCATION & CERTIFICATIONS

**B.Sc. (Hons.) Computer Science**
National Open University of Nigeria (NOUN)

**Google IT Support Professional Certificate**
Google / Coursera

**Diploma in Software Engineering**
Information Technology Institute

**Full-Stack Development Specialization**
ALX Africa
